Education

Gokaraju Rangaraju Institute of Engineering and Technology <i>Bachelor of Technology in Computer Science and Engineering</i>	Hyderabad, Telangana 2024 – 2028
--	-------------------------------------

Experience

Assistant Manager – Accounting & Assets <i>Advanced Academic Centre (AAC), GRIET</i>	Aug. 2025 – Present Hyderabad, Telangana
--	---

- Managed financial records, registration accounting, asset tracking, and expense coordination for club activities and technical events.
- Coordinated junior project teams by tracking progress and acting as the communication bridge between students, mentors, and club leadership.
- Contributed to Project Expo and Opulence through financial operations, sponsorship outreach, logistics, and event coordination.

Projects

MESHLINE <i>TypeScript, React, Vite, IndexedDB, WebRTC, Leaflet.js</i>	2026
---	------

- Built a serverless Progressive Web App enabling decentralized peer-to-peer communication and local-first information sharing during internet blackouts and network disruptions.
- Implemented a gossip-based data propagation mechanism supporting multi-hop information relay across connected devices through intermediate peers.
- Developed offline persistence using IndexedDB and crowdsourced safety mapping with Leaflet.js, including visual decay, compressed QR data drops, and a one-tap panic wipe.

GST Filing Agent <i>Python, Streamlit, OCR, Gemini Vision API</i>	2026
--	------

- Built a Micro-SaaS AI agent that converts invoice photos into GSTR-1 draft files, reducing manual GST data entry for small businesses.
- Implemented an OCR + Gemini Vision pipeline to extract GSTIN, invoice details, HSN codes, tax values, and line items from invoice images.
- Developed GSTR-1 classification logic for B2B/B2C invoices and generated filing-ready CSV exports automatically.

MedVault <i>React.js, Node.js, Express.js, MongoDB</i>	2026
---	------

- Built a secure medical record platform allowing patients to digitally organize prescriptions, reports, medical documents, and health records.
- Implemented role-based access control with temporary, time-limited, and revocable permissions for controlled doctor access to patient records.
- Developed dedicated patient and doctor workflows for uploading, managing, and securely sharing medical records.

CodeClash <i>React.js, Node.js, Express.js, MongoDB</i>	2025
--	------

- Developed a competitive frontend coding platform supporting timed HTML, CSS, and JavaScript challenges across multiple difficulty levels.
- Implemented real-time leaderboards and dedicated host-participant workflows, allowing external hosts to create and manage coding contests.

Technical Skills

Languages: Java, C, C++, Python, JavaScript, SQL

Web Technologies: HTML, CSS, React.js, Node.js, Express.js, Vite

Databases: MongoDB, SQL

Developer Tools: Git, GitHub, Postman, Figma, VS Code

Core Concepts: Data Structures & Algorithms, REST APIs, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks
